

ILM Level 7 Strategic Leadership & Executive Management through Executive Coaching

The ILM Level 7 Diploma in Strategic Leadership and Executive Management is ILMs most senior qualification. It gives practising and aspiring senior managers a wide range of topics for their formal development as leaders in their fields. It will help them gain a comprehensive knowledge of the knowledge and skills required to deliver results for themselves and their employers, customers and other key people. It is delivered through a unique blend of learning, centred on executive coaching, that is tailored to the needs of each student. It is a very demanding programme but the rewards can be very high.

The Programme

The programme is centred on a combination of executive coaching and work based learning. Students define a set of objectives designed to have a real impact on their workplace and develop this into a workbased learning project. The programme is then delivered through six themes, using a combination of coaching, set readings, individually defined CPD, online learning and reflective reviews. Students progress through the programme, supported by their coach, focusing on achieving high levels of impact for themselves and their organisation, by applying high level learning to the workplace and evaluating the results.

Progression routes

The Level 7 Diploma is a most prestigious qualification in its own right and is the Institute of Leadership and Management's most senior award. It also provides students with 90 level 7 credits. These credits, which are at post graduate level, can be used as a stepping stone into advanced entry into Masters level qualifications. ibp academy has developed strong links with a number of Universities and can facilitate advanced entry to MSc and MBA qualifications, providing up to 50% exemption from the requirements of the Universities. For more details, contact ibp academy directly.
